“ Lois,  
You were, and have always been, my inspiration for being an open and loving parent and wife. Your delight in fulfilling these roles joyfully and lovingly was evident and contagious. Your warmth and smile upon opening the door of your home to so many of us made us feel not only welcome but special. From dessert bars to casseroles, your cooking inspired many of us to try our hands at the same. Today, I think I am a better mom and wife for having known you. I have and will always carry your spirit within me and consequently my family will too.

*I am blessed to have known you.*
