“Lois Ruby and I worked together creating art at "Treasuremasters Greeting Cards" company. She was very shy and soft spoken, but in her mind there were very funny and creative images going on. She expressed her self in her many humerous sketches she passed around the office, while at work.

*We worked in a very tightly controlled department, it was all work and no play, but Lois, with her comic sketches, always saved the day and lightened our spirits.*

*Thank you Lois, your humor lives on. Betty Hood Anderson*
