“ *My thoughts and prayers are with you all. It is at a time like this that childhood memories are remembered, when the Norton and Lutes families would spend time together.*

“ *My best condolences go out to you Grace and family. The truth that we will all meet again is so exciting to think about. As you go through the next days may God's grace and His loving care be ever present with you.*

*Lowell was almost like another father to me in years past.*
