 Margo Suhr

“ I lived next door to Margaret for six years. She was a good neighbor. We shared our love of cats and gardening. Just last week I was thinking about her and how she tended her mother's peonies. One year primroses started blooming among the peonies. Margaret had no idea how they got there. Margaret also used to call me at work and 'rat' on my daughter when she was having friends over when she wasn't supposed to. Everyone needs a neighbor like Margaret! I haven't seen Margaret in over 20 years but I still think fondly of her. What a long life she lived! I wish her family peace.
