“ Carol and family, I have so many wonderful memories of your mother/wife/grandmother. She was full of life and always there to greet us when we came to the house. She would jump up from watching her favorite soap opera and want to feed us, but we had already been to the " milk." Whether we were just coming over to hang out or there to dress for prom your mom always made us feel welcome and special. She was one special lady! My condolences to you all. Kathy Drury
