“ *Marilyn Eveslage- Welle was a long time friend and neighbor --we grew up together in a the small farming community of Greenwald - our parents were best of friends and farming neighbors-just over the hill. Marilyn and I were taught from early on what neighbors really meant and how families shared the difficult years of farming the hard work as we all know we managed and yet shared in the best of times. Marilyn and her family cared for us from early on. Marilyn reconnected with me as her family was growing up and I was just starting mine-she shared the Mary Kay opportunity with me but I never did see the vision she had and she pursued and became a fabulous leader and mentor to many.*

Although the years and the distance got away from us , we were able to share the times we were able to be together and many of those times were back home where we first met.

Thank you Marilyn for showing your children, family and friends the true love you had for others and your smile and contagious laugh will live on forever.

We will love and miss you until we meet again...
