“ *The photo I sent of Jodi and Margie truly captures the spirit of these strong business women...the place was at the Minneapolis Depot Hotel when we celebrated Myron and Jodi's 30th anniversary.*

Margie was our boss and Jodi was my boss at my first job at Kraus-Anderson. There could be no finer business women ...they were very serious about being professional and proficient, but they also knew how to have a lot of fun.

I will remember the open houses at K/A and the parties and celebrating at The Normandy...and the lunches. Back then, it was okay to have a drink at lunch but I remember coming back and having to type a change order transmittal 18 times before I got it right...I never drank at lunch again...a lesson well learned.

Margie we will miss you so much. Give Steve and Tori and Dean big hugs from all of us.
