“ Mark (Eddie) Roen,

As we go through this long and winding road of life we have the great opportunity to choose a few people we call friends. Longtime enduring friends we share the good times and a few bad times with. You chose our crew of rag-a-muffins and we became more than just friends - we became a band of bothers.

Brothers that competed as a team (OBI and Old Dogs and more) in all points MN or with each other on the golf course or the Claire game or fantasy football or touch football or rock trivia or bocci or meat raffle or MN beer. You loved it all!

You cherished those happiest of moments and protected them. Counting down the days until we were together again. You kept a watchful eye on all of us ensuring we were safe and protected. You always had our backs and for that we are all thankful. Thanks Edward for the effort you put in to keep us together and not drift apart. You were as loyal to us as your loving dogs were to you. You had a true gentle loving and compassionate relationship with Chase and Buddy that we admired. It showed your true nature under that sometimes gruff exterior.

Your laughter and humor will be forever missed especially when something really tickled your fancy like “two out of three ain’t Brad!” It was awesome to see you really laugh hard like that. Your signature phrases “sun fush” “stupid” “nite now” “huh” and “Doahh” are forever in our ears.

Mark, you made us feel important in your life by your actions and we all want you to know you are important in our lives.

We know you are still with us and probably rolling your eyes. Just wait, in what will be a blink of an eye we will all be back together golfing, playing ball, playing the Claire game, eating spicy food or just having a cold Hamm’s or Premium. Our brotherhood will be reunited and the good times will roll once again.

Rest In Peace our brother, we miss you terribly already and it just won’t be the same without you. We love you. Look over us and give us a nudge when we need it to be the very best men we can be. We dedicate that in your memory...
