“ Marty was the reason I came to Minnesota. I interviewed with the North Clinic and he was so positive that I would be a good fit. I was so happy to have young, energetic partners who really enjoyed their work. We have been friends since that day. Have enjoyed getting together since our careers have changed. I will miss Marty.

Marty was my physician for many years at North Clinic. He followed my hockey career since high school. He knew about every stitch and multiple broken noses I received over the years. When he moved up north, we got out of touch but never out of mind. He will be missed.
