“ You were a wonderful sister and I'll miss you dearly.! Your quick sense of humor made us all laugh. The dignity and grace you showed during your illness was amazing. Your courage was inspirational. I remember as a little kid, you always hugged me on the couch, as we got older it never changed, you still took care of me in so many ways. I know you, Dad and Billy will be watching over us. Erika and Scott will carry on your legacy, you were a great mother to them, and it shows. Love you so much!

“ *Her laughter and keen sense of humor was her hallmark. Her lovely children are her legacy. Our lasting memory will be the grace by which she showed us how to live while dying. I feel her hand on my shoulder as she now guides us forward.*
With love, Sue & Jeff
