“ *My heart goes out to the family! Our whole family sends hugs from New York.*

*I have lots of great memories!*

*Coaching basketball at first Baptist when he was in high school are my first memories. he then then attended my Sunday school classes, was in my fantasy football league, and even came to college for Bible study as well as other campus ministry events that I hosted.*

*The photo I'm posting was him making bagged lunches with our college group that then walked around downtown handing them out to homeless people and praying for them. 7 years ago today.*

*Miss you and we send our condolences Margo and Matt.*
