

Michele Kimberly Becker

February 6, 1966 - May 22, 2026

Michele Kimberly Becker died on May 22, 2026, held by her favorite partner in everything, her husband Bill Becker. She was 60 years old.

Born in Minneapolis, Michele grew up in Elk River, the daughter of Ron and Kathy Tobeck and the sister of John, who preceded her in death. She and Bill, inseparable from their first meeting on Valleyfair's Enterprise, married in 2003 and called St. Paul home for nearly thirty years.

Michele developed an impressive career by leaning into her strengths. Hired by Platinum Technologies to test software, she grew into an admired programmer who loved data and could actually talk to people outside the world of computer nerds.

Michele had many interests, but massive multiplayer online role-playing games had her full attention, and she formed many friendships solving puzzles and battling monsters. She also loved camping, wooden jigsaw puzzles, and traveling, especially by train.

She is survived by her husband, her parents, many other relatives, and a wonderful group of close friends she considered family as well.

A memorial gathering will take place later this summer. The family welcomes

written stories reminiscing about their friendships through the years with Michele.
