“ I will forever treasure every moment and memory I had with Pat. Our family will hold her in our hearts for the rest of our lives. To have Frank and her as our neighbors on the lake was heaven sent. Our connection was immediate and it seemed our smiles and holding hands in conversations so close would carry from car to house and back down the sidewalk to car again. Sitting on the edge of her seat on the floor boards edge talking and talking til they had to leave each time. I would hold onto those conversations til they would pull back into the driveway the next time they came to the lake. We witnessed in them a love that touched our hearts as true love that you don't see very often. The love for one another that my kids and I were thankful to witness and be apart of for us to know that kind of love exists. They became family to all of us and loved our cat Miss Hutch. Who by the way would run over there and enter their home as if she lived with them while they visited. My family receiving the news of Pat passing has left us broken hearted. We do know that she is an angel that will always shine and twinkle in our lives everyday. I always thanked her for all her encouragement, laughter and deep concern for my family as we have with Frank as well. In my heart and loads of tears I hope she knew how deeply she changed my life each time we held hands and talked. Beautiful beyond words one of my dearest friend I will carry with me always.
