

Patrick Shea Connolly

November 15, 1990 - March 30, 2021

Connolly, Patrick Shea age 30 from Bloomington. It is with such sadness that we announce the passing of Patrick who took his own life Tuesday, March 30th. He is survived by his fiancée Tasia, parents Bruce and JoAnne, and brother Kyle (Marcy) and many other family and friends who will miss him greatly. Patrick was one of a kind. He appreciated the beauty in everything. He loved hikes, and felt a strong connection to nature. Patrick would often stop to admire and listen to the life of the forest. He loved music and playing the piano, feeling every note of the song as he touched each key. Pat loved to dance, his body moved with carefree expression with every song. With a creative mind and a kind heart, he could create beautiful poems and intricate stories. He had a voracious appetite and could eat his weight in chicken wings and cheesecake. Unfortunately, he struggled with mental illness that he was unable to overcome. He had the brightest soul, he will be loved always and in God's loving arms we know he will find peace. A private memorial will be held. Memorials preferred to NAMI, any suicide prevention organization, or nature conservation.
