“ Phil and I shared a lot of memories after reconnecting in 2014. Following Phil recalls visiting me in both Portland 1972 and in SF 1980:

*"I found the photo album. I was in Portland to see you in 1972 and then I came down to San Francisco in 1980. At least that is what is stamped on the photos we took. Don't know how long we waited to develop them but I would think it would be during that year. Ha Ha Ha. I have found rolls of film that I kept for so long I forgot what was on them though.*

*Phil"*
