“ *Phyllis was a great lady. I send my condolences to you, her family. What good memories I have of her as our office manager/secretary at Comstock and Davis many years ago. She was so efficient, always improving my letters with her expertise in spelling and grammar. She was friendly , fun, and set a caring tone to the office. I remember she said her family came first. May your special memories give you smiles and comfort.*

“ *Phil, I so much enjoyed meeting and chatting with your mom at your retirement on July 18th - she was so charming and kind. She spoke with me about remembering my parents, and that she and my mom were active in the League of Women Voters together - and we agreed that the League did so much good for public and political change. Your mom appeared to me to be a beautiful and vigorous 70 - how glorious that she had 90 love filled years. You and your family have been blessed. My prayers are with you and your family - she will truly be missed.*

“ Our thoughts and prayers are with all of you at this time. She was a loving lady! Let there be more tears from laughter than sorrow as you share memories.

“ What a wonderful lady. Almost always had a smile for us growing up (depending on what we got ourselves in to) and willing to put up with us at the house in Columbia Heights. A great Mom and Grandma. May she rest in peace and finally be with her husband she lost so long ago. A lot of golfing will be done in the clouds. My heart goes out to Chris and her brothers. She will be dearly missed.

At our Coon Rapids "Lakes Edge" neighborhood association annual meeting this evening we heard about the passing of Phyllis. We will all miss her! She was the "neighborhood welcome lady." She served on our association's Board for 20 years--mainly as the Secretary. I'll miss not seeing her walk to the mailbox each day--often returning another NetFlix movie. Gosh, I didn't realize that she was 90 years young! SHE was the one who taught me to daily ask questions of Google. A very modern lady! May she rest in peace...
