“ Seeing the obituary for Ray Hartley in the paper the other morning immediately brought a memory to my mind. Sitting in my car with Ray in the passenger seat on top of the hill in Vestil, New York and trying to listen to the 10:00 news with Cedric Adams on WCCO radio. Ray was a great mentor to me in the summer of 1955 when as a new graduate from the U I joined him in working on the IBM 650 magnetic drum data processing machine in Endicott New York. Ray and Joyce were substitute family for my wife Audrey and me on our first venture away from home. Unfortunately our future careers took us in different directions. My wish is that I had known that Ray was living close to my home in New Brighton, these past few years so we might have had the opportunity to sit together and watch the 6:00 news on WCCO TV. May God bless you and family with all your memories of Ray. Bob Lockwood
