“ Robert Baker presided over my marriage to my husband David and I on the 15th of September in 1995. Our marriage made a nice impression on my step daughter and she asked for him when she and her husband married a few years later. He gave such a richness, depth and spirituality to our communions. I had known Robert through his counseling, Course in Miracles and was originally introduced to him through my friend Chris Mueller. She remembered his stories of Pygmy goats and Baker Glacier as do I. His myriad of interests, his fascinating and numerous emails and his freshness of life will be missed. He always spoke so lovingly of his family and was such a contributor to the community. He is missed. Bless you Baker family.

“ Robert, you were truly a great friend when I needed you. I so miss our discussions and your emails on all of the political issues. Your humor brightened my days. The world was a better place because of you. Your kindness and caring had no limits. We have all lost an asset to our lives. I will truly miss you and look forward to seeing you again for some more deep and humorous discussions.
Your friend forever, Linda Lee

“ My heartfelt condolences to Robert's family. I have known Robert since he offered classes in hypnosis through Com. Ed at Burnsville Schools. I took his class and he worked with me on my efforts to quit smoking. His voice and style was so low, smooth, comforting, and trusting that I suggested he do family mediation training. This did not turn out to be his forte. He sold Alpine clean air machines and my husband joined him in this endeavor.

We enjoyed some good lunches and conversations over many topics. Of late his tapping and other healing methods seemed to bring him the most success in a long time. We will miss him. See you on the other side Robert!
