“ Roger is one of the men I admired most, and second only to my father among those that influenced my life's direction. I joined one of his entrepreneurial ventures forty years ago, marking a turning point that has persisted since. Roger was a gifted engineer and extraordinarily creative man, and if something did not exist yet that was just another opportunity to create. Technology that we developed has been in use for the decades after the business closed.

Roger was a man of integrity, loyalty to those around him, and boundless common sense. He had a great sense of adventure in all he did, and was a positive influence on all he came in contact with. He will be missed.

“ It was a sad day when I opened the obituary section of the Sundays paper and saw Roger McCumbers picture. We go back years to Univac beginnings on Prior and Minnehaha in St. Paul working on advanced computers at that time. Our passion was sport aviation and later on when we both worked at Data Card we both became private pilots. (he became a flight Instructor.)

We both started building the same kit aluminum airplanes but he wound up building a sleek fiberglass airplane he flew around the country. We will miss him at our monthly get togethers with our friends.

“ I worked for Roger on numerous projects at Datacard over the years. He was knowledgeable and easy to work with. As an additional perk, he would sometimes share past stories from Univac when he worked with my dad! Praying for your family.

“ Our families were very good friends, and Rod and my dad, Wayne Goss, were very close. They spent a lot of time together as their hobbies and things they enjoyed were the same. I remember Rod as a tall quiet man who spoke when he had something to say, and it was always profound. You would be hard pressed to find a better man. Bev, Chris, and Amy, I remember so fondly being at the farm playing, riding horses-even falling off, being in the barn, all the animals, tramping through the woods, just all the good times! It was a wonderful childhood with your family! I have no doubt our dad's heavenly reunion was joyous!

“ Roger was my dear brother in law and in my life from the time I was 12 years old. He was so brilliant but also such a kind and caring person. It is hard to imagine our family without him. My heart goes out to my sister and his children and grandson.
