“*Rose enjoyed Friday afternoon visits with my Jack Russell Terrier, Sadie, and me. Sadie would lay next to Rose while she and I talked about bird watching, her love of dogs and cats, and her years working at Pillsbury. Sadie brought many smiles to Rose, and I enjoyed each Friday visit with her. She was very special and will be missed.*

“*I remember Rose as a sweet, kind and gentle person. I met her when I joined Pillsbury right out of high school in '68. She was a mentor to me, as I was an inexperienced office worker. She generously and patiently shared her knowledge with me and helped me succeed in my first job.*

We also enjoyed many lunches and coffee breaks together, and I truly loved knowing her. Besides her great sense of humor, she had a outstanding set of principles and was an exemplary role model for me and others who knew her.

May she reap her eternal reward for the good life she led here on earth. My deepest sympathy to her family.
