“ Aunt Sandy was so sweet! So sorry for your loss! She was a live wire for sure! I remember on one of our visits we saw several tornado's pass in the sky. It happened for a couple nights and I thought wow this is scary! She just said don't worry sweetie it`s alright and she was right. I remember having a pizza called the garbage special and I thought it was awesome, it did have everything on it for sure! Always had fun with everyone on our visits! Sending our best wishes to you all!!

“ *My first memory of Aunt Sandy, and I'm sorry I've forgotten lots of details, was a sleepover at their apartment. I think Uncle John was away and it was us girls having so much fun. I was treated like a little princess and showered with attention and love. I thought at that time I was with the most cool teenager, and Aunt Sandy remains in my memories as a fun and youthful, supportive and wonderful woman who loved and laughed with her whole heart.*
