ME

“ I've lost my fishing buddy. Fishing with Steve was always an adventure. His sense of humor was definitely an Everson. Often when one of us would do something stupid (which would happen more than we liked) Steve would say, "The Everson gene pool is quite shallow." Steve was a great friend to a lot of people. He never hesitated to offer his help if you got stuck on a home improvement project. If you needed a specialty tool, Steve had it, and he would lend it to you with no questions asked. Steve loved his family, he loved watching his grandkids sporting events. Thanksgiving at Steve's was an event we all looked forward to. RIP cousin. You are missed.
