“ I can remember the first time I met Steve at the old HED. facility in White Bear Lake (the "home-actory"). His great enthusiasm for knowledge (both acquiring and sharing), along with his desire (and ability) to apply it practically to the problem or project of the moment were immediately noticeable. Conversations regarding a broad range of engineering subjects were always enlightening and, more importantly, fun. He will be missed by so many...

My condolences to the Hed family and HED. Cycling.

“ We were back to back neighbors in Brooklyn Park. I remember the boys as typical and rambunctious.

My sympathy goes to the family especially Joan. She was a wonderful Mother to her sons.

“ *The entire WiSport Cycling Series bike community was sad to hear the news about Steve. Many members ride on Hed wheels and all know of his innovative thinking. The Big Ring Flyers bike race team from Hudson, WI, was proud to have the HED logo on their kits a few seasons ago. He will be missed, but never forgotten in the bike racing world. Who could forget stopping in at the house/factory/warehouse, etc., getting a tour, seeing Steve trying something new, and going home with a new set of Hed's finest wheels?*
