SM

“ I remember when your dad was a mailman, carrying his big leather bag. He would have magazines, packages along with the letters in that bag, I found that to be remarkable. Then after he retired he always kept the path between the houses in the winter cleared so the current mailman could walk easily through the yard instead of going around. My dad also made this his tradition.

Thinking you Ardyce and family, may you find peace in your days ahead.
