“ *Wayne; My thoughts to my brother. We both had great fun growing up with two of the best parents ever. They taught us to be kind, respectful, and nice to everyone. They also taught us how to run a business and be good to all. As kids, we played together, fought a little as brothers do, and had tons of fun. As teens, we got cars, dated and had lots of fun together. Recently in life we had a wonderful time texting and talking on the phone about everything under the sun. You were the best brother ever - may you rest in peace. God bless you, your family and friends young and old and for all the good times we had in our early and later life. I love you and miss you. Your brother, Gene.*
