“ I worked with Wayne for quite a few years. Wayne was a great guy with a great heart, great stories, and just a lot of fun to be around. One of his favorite topics was his son Nick and the fun things they would do together. I fell out of touch with Wayne after moving out of state, but after all these years a smile still comes to my face thinking about him and his stories. Good thoughts and prayers to Nick and all the others who loved Wayne. If there are big rigs in heaven, I'm sure Wayne is driving one of them back and forth across the heavens telling fun stories, spreading good will, and making people smile. God Bless!
