

Wendy Sue Koskey

April 30, 1964 - November 24, 2023

Wendy Koskey (59) unexpectedly passed away on November 24th. Her family is devastated beyond words. Preceded by her mother, she is survived by her loving husband of 30 years (John 59), two daughters (Jennifer 28 and Samantha 26), sisters, father, and other friends and family. Though we have lost her we know she is now breathing freely and no longer in any pain. We are looking forward to her looking out for us from above, or haunting us even closer (depending on how she feels that day).

Wendy was an avid reader and her family is ever thankful for the Anoka County Library and the Libby app that allowed her to borrow eBooks, preventing the buildup of books in the house that would have created a fire hazard in a very short period of time. In the summer she loved watching baseball outside with her husband and anyone who would stop by, floating in the lake, and just enjoying the warmth. She hated the snow and looked forward to visiting her sister in Arizona each winter to escape (and to float in the pool). Her other hobbies included shopping (but not buying, there is a difference) with her daughters, watching shows such as *The Marvelous Mrs. Maisel* and *Great British Baking Show*, quilting, and spending time with loved ones. If you knew Wendy you knew she hated having her photo taken, but she loved taking pictures of others and of sunsets. Please enjoy one of the last sunset pictures she took.

A service is not planned, but a celebration of life may be held at a future date.
